PROFESSIONAL SUMMARY

With over five years of experience in C# and .NET Core, I have successfully led projects in agile environments, refining software architecture and enhancing performance. My strengths lie in leading teams, solving complex problems, and integrating innovative solutions in the fintech space. I aim to join First Digital as a Senior Software Engineer to drive excellence in digital asset technology and foster a growth-focused team culture.

EXPERIENCE

Senior Unity VR Developer   **Sep 2024 - Jan 2025**
LucidRealityLabs, Florida

- - Led VR development integrating AI-driven features for enhanced user experience.
  - Managed avatar customization to boost customer engagement and retention.

Lead Unity Engineer   **June 2023 - Sep 2024**
Galaxy4Games, Estonia

- - Led development of modular workflows to create dynamic player experiences and optimized system performance.
  - Coordinated feature enhancements to elevate gameplay, ensuring exceptional user satisfaction and maintaining product vision.

Unity Software Engineer   **July 2022 - June 2023**
Whimsy Games, United Kingdom

- - Led scalable multiplayer systems and networking solutions to enhance user experience and system efficiency.
  - Coordinated collaborative delivery of features, driving product vision to attract and retain customers.

Full Stack Engineer   **Sep 2020 - May 2022**
Appside, Ukraine

- - Developed reusable systems for casual games, enhancing team efficiency and product scalability.
  - Guided teammates to meet deadlines, ensuring timely project completion and high-quality results.
